Backpack lever operated sprayers

The 15 and 20 litre HARDI Backpack sprayers feature a leak proof tank design with piston pump for easy cleaning and maintenance.

They are ideal for insecticide, fungicide and herbicide use with operating pressure up to 3 bar. The constant flow valve supplied increases spraying time and is used for spraying herbicides at 1 bar ensuring correct application pressure.

The tank is not pressurised. Spraying is controlled from the trigger valve. The sprayers comprise of few parts with no special tools needed for maintenance. A graduated 250 ml measuring jug is standard.
